This is just a rough template for discussion. Naturally, cells can be merged and text wrapped.

The purpose for this is due to the large amount of data and information flow that is on-going, and my effort to make sure none of this data/info is missed or falls through the cracks.

This is not an exact format, and we can discuss how you may wish to format it to best share the information. Any comments/input on this from your viewpoint is welcome and can be discussed.

Thanks
Adam
